Student agreement:

I, Sergio Robledo, hereby grant the University of Dallas a worldwide, nonexclusive, royalty-free license to my thesis or dissertation with the rights to digitize, distribute, and publicly display the work in the UDigital Commons in any way that furthers the educational, research, and public service purposes of the University of Dallas as specified below.

I agree that:

1. I have the full authority to enter into this agreement;
2. If the work includes any photos, videos, data, interviews, or other accompanying material that is not original by the author, I have properly cited them and obtained the necessary permissions to include them in the UDigital Commons;
3. I have not made, nor will I make, any contract or commitment that would be contrary to the terms of this agreement.

I do not grant the University of Dallas any other ownership rights in the copyright of the thesis or dissertation and thereby retain the right to use in future works (such as articles or books) all or part of this thesis or dissertation.

I agree that the above mentioned dissertation or thesis be placed in UDigital Commons with the following status:

- I release the entire work for immediate access worldwide (preferred)
- I release the entire work for University of Dallas access only for one year, after which time the work is released for access worldwide.
- Secure the entire work for patent, publishing, and/or proprietary purposes for a period of one year, after which time the work is released for access worldwide.
- I do not grant permission for my thesis or dissertation to be included in UDigital Commons (requires Dean's approval). A summary and citation of the work will still be included in UDigital Commons.

Signature of Dean: \_\_\_\_\_

All submitted works will be subject to the UDigital Commons Terms of Use.

The final PDF copy or facsimile printed from the final PDF copy of the above mentioned document must have been reviewed and accepted by your advisory committee. Your signature indicates that you agree to abide by the statements above.
