

University of Dallas
Convocation

Citation of Sybil M. Novinski

Sybil Novinski came to the University of Dallas when the school was very small, and she has nourished and loved the child into its present maturity. She is our Registrar and the Associate Dean of the College.

She has held such titles as Director of Student Activities, Coordinator of Student Programs, and even, years ago, secretary to the Department of Art. Her work here included the writing of a great many news stories and publications about the University, and most of us, students and faculty, have attended celebrations in the Novinski home.

Her work in admissions, guidance, and the keeping of academic records is loving and detailed. If you are a student here, you have been considered, estimated, loved, added up by Sybil Novinski, "circled with her concern," and you do not leave without her careful and loving mark upon you.

She holds degrees from Marquette and Southern Methodist Universities. She mothers the University of Dallas and all who gather here.
